## INTRODUCTION

3<sup>RD</sup> EYE VISION is a turnkey solution based engineering firm offering Interior, Engineering, Consultancy and Contract services that takes inspirations from basic elements of nature and believe in shaping designs that are perfect blend of aesthetics and functionality. In its existence of more than 5 years. I.e. in 2011 this company has been set up by a team of qualified and experienced engineers with intent of adopting the best engineering practices for serving its clients across MEP segment. We ventured out as a Solar EPC solution provider leveraging on our rich Electrical experience in the year 2015. The EPC Contract for 50 KW Elevated project over a two story commercial structure in Manesar (Gurgaon) envisaged the beginning of a glorious era which has added tremendous recognition to the stable of 3rd Eye Vision. The management of the company team is experienced and expert young engineers. The team members have good experience for executing interior, EPC, mechanical and electrical works. The company is mainly focused in executing the concept design, detail engineering, contract and services for all kind of interior, HVAC, electrical, mechanical, plumbing, solar EPC and project management jobs and provides design and engineering services in following disciplines:

- Electrical Systems HV (High Voltage) & LV (Low Voltage).
- Fire Fighting System
- Security & Fire Alarm System.
- HVAC.
- Project facility Management.
- Civil and Pre Engineered Building.
- Solar EPC.
- Turnkey MEP Services.

### Process outsourcing:

To stay ahead of one's competitors in today's global environment, it is a necessity to improve efficiency, reduce cost, and utilize latest technology and team up with the right PARTNER.

3<sup>rd</sup> Eye Vision provides solution to its customer with the best available technology and services at a reasonable cost. It has vision to become one of best solution providers for all engineering domain.

## Resources & facilities:

3<sup>RD</sup> Eye Vision presently starts the operation to provide complete Facility Management to its customer. It has form up team with experienced and skilled engineers and support staff. Most of the staff is experienced in respective field. 3RD Eye Vision has its own design team headed by experienced engineer with project team. Each team member has executed similar works for various companies in India in industrial and commercial sector. 3RD Eye Vision has deployed separate subcontractor for individual works. Each contractor having good amount of experience for executing such jobs last 10-20 Years. Each contractor having very good strength of skilled and semi-skilled men power that will able to execute the jobs at time. We are using latest software to prepare design detail and drawings. It has capability to provide all Auto Cad 2D & 3 D drawing to clients.

We ensure that our deliverables are an “exact Fit” to client need by understanding project requirements, close and regular contacts, periodic quality checks and visit “on site” locations. Additionally company deploys the technical personnel of various levels at client office for any specific assignment or based on the client long/ short term assignment as required from time to time.

## OUR MOTTO

### Ø Focus on Work

We believe that, in business, it is the result that matters most. Our approach is to focus the team to achieve these results, and the approach helps them to sustain those results by ensuring they understand how teams must operate to consistently deliver what is required.

### Ø Economic in Execution

Along with design and development, the planning and management of the entire project is carried out through meticulous detailing and documentary back up, inclusive of budgets and time schedules. With wealth of experience and expertise team we ensure completing the project to specifications within budget.

## Ø Punctuality of Delivery

Punctuality of delivery is essential to today' s business, and 3<sup>RD</sup> Eye Vision is known for on-time delivery. Establishment of a close collaboration with customer secures successful project operation in the shortest possible time.

## Ø Strength of End-product

Our background is in business, delivering quality results year after year. We are not theorists who have never had to manage businesses in challenging environments. We manage our teams through enormous change, and we believe that it is all about developing beauty with strength.

# OUR SERVICES

## ELECTRICAL

We are mainly focused in Indian market providing services for the entire HV (High Voltage) & LV (Low Voltage) electrical systems, detail design of complete electrical system, calculation of power requirement, prepare cable requirement, electrical Panel, testing and commissioning of entire system, Building Management system.

Our offerings in Electrical includes:

- Transformers
- HT & LT Panels
- Cabling
- UPS Systems
- Static Transfer Switches
- Earthing
- Internal & External Electrification

## FIRE FIGHTING SYSTEM

The Fire Fighting Division provides end-to-end Solutions including designing, Installation and Service of Fire protection & Detection systems. We have a team of highly experienced & professionally qualified engineers in the area of life and property safety in accordance with Local & International

Standards / regulations viz. IS, NBC, NFPA etc.

In all major sectors i.e. industrial, Steel plants, power plants, cement plants, oil & gas, pharmaceutical, commercial, residential, hotels etc. we have highly qualified & fully trained design engineers for Designing of

- Fire Pumping System
- Fire Hydrant System
- Wet Sprinkler System
- Water Curtain System
- Deluge Valve system
- Fire Alarm & Detection System
- Gas Detection System
- Gas Suppression System

With the rich experience, our Strength lies in delivering Projects in Safe Environments & as per according to proper Standards & norms.

## SECURITY & FIRE ALARM SYSTEM

Since Starting we are providing customers with dedicated and customized solutions. The company continues to deliver complete IBMS Solutions to the customers that comprise of the following:

- Fire Detection System
- Gas based Fire Suppression System
- Building/Home Automation System
- Access Control/ Biometric System
- CCTV & Surveillance System
- Public Address System
- Intruder Alarm System
- Entrance Automation System
- Video Door Phone System
- Parking Management System
- Boom Barrier Systems

## HVAC

Detail design of complete AIR CONDITIONING & VENTILATION system for Residential, Commercial, industrial Cineplex, hospital, health center, CLEAN ROOM, BIO SAFETY LAB (I,II&III), LOW RH ROOM, UHP & GAS PIPING. We have setup a strong team to offer complete HVAC solution like:-

- Central chilled water Plant system
- DX System / VRV systems
- Primary / Secondary pumping system
- Thermal storage system
- Solar heater and related low side work
- Ventilation system and evaporative cooling system
- Heat recovery and desiccant cooling system.

## PROJECT MANAGEMENT

Project Management for all electromechanical works, Deploy men power for supervision of works, Check quality and quantity of works, "ON TIME" Completion of Projects.

## CIVIL AND PRE ENGINEERED BUILDING

With our skilled team we have executed some low site projects in the market of Delhi/NCR which includes interior projects like corporate offices residential renovation, small outlets etc. Interior projects may involve redesigning floors of existing space or turning completely empty warehouses or offices into functional finished workplaces. Carpeting or flooring as well as furniture will need to be added to complete the space.

## SOLAR EPC

We ventured out as a Solar EPC solution provider leveraging on our rich Electrical experience in the year 2015. The EPC Contract for 50 KW Elevated project over a 3 story commercial structure in Manesar (Gurgaon).

## TURNKEY MEP SERVICES

Now, we are also evolved into the MEP services with our in house skilled team for the successful execution of the MEP projects all over India & we will be promising on behalf of our team & experienced subcontractor's caliber & talent to manage the work through enormous change, and we believe that it is all about developing deliverance with strength.
